BY SUPPORTING:

- **Best-quality medical care** of patients with implant infections across Europe
- **International research & medical collaboration**
- **Professional education** in the field of implant infections

THROUGH:

1. HELPING PATIENTS & THEIR RELATIVES

- Providing **information** and **medical advice** on risks, symptoms, diagnosis and treatment options of implant infections (flyers, educational events)
- Sharing **experience** between patients
- Presenting new treatment options for better life quality

2. SUPPORTING RESEARCH ACTIVITIES

- Innovative **laboratory and clinical studies** to improve management of implant infections
- European **collaboration and independent research** on biofilms and implant infections
- Granting **awards and prizes** to young researchers for training and high-quality research

3. SUPPORTING EDUCATIONAL ACTIVITIES

- Providing healthcare professionals with **up-to-date information** (newsletters, workshops, webinars, forums)
- Networking with **international experts** in the field of implant and biofilm infections

INTERNATIONAL COLLABORATION AND NETWORKING:

We support exchange programs (observerships, hospitations and fellowships) to facilitate training and international collaboration between healthcare professionals
